San Francisco State University Proposal for Summer Program July 2023

San Francisco State University, located in one of the world's most beautiful and culturally diverse cities. SFSU is a public University, a leader in global education, with approximately 30,000 students. It awards bachelor's degrees in 126 fields, master's in 103, and a doctorate in educational leadership. The university's top three majors are Business Administration, Engineering, and Computer Science. SF State faculty and students work closely with local government, business, and educational partners to advance the development of the university and the local area. The top-notch faculty, modern facilities, and the aura of creativity and innovation in the SFSU campus is a life-changing experience for the students looking forward to kick-starting or upgrading their careers. It is also a leader in community service.

Customized Training Programs

SFSU Extended Learning International Customized Training creates current theoretical and practical curricula in a wide variety of areas, including business, technology, engineering and the sciences. Our trainers are both seasoned SF State faculty and leading industry experts, who deliver high-quality content in person and online. They assure both conceptual understanding, as well as practical knowledge that can be applied to the student's real-life work environment. Programs are tailored in length and include visits with our corporate, government and peer university partners. See recent customized program photos and SF State campus here: .

Opportunities in San Francisco

Students have the opportunity to immerse themselves in a modern American university environment as well as experience the dynamic downtown of San Francisco. The main campus is located in a quiet and safe neighborhood near the Pacific Ocean. The second downtown campus is located in the heart of the business district, near financial institutions including headquarters to

companies such as Wells Fargo, Salesforce, First Republic Bank, BlackRock, Levi's, Gap Inc., Dropbox, PG&E, Lyft, and Cruise, social media companies including LinkedIn, Twitter, Pinterest and Yelp; and new economy companies including Airbnb and Uber.

Program Overview

Student will enter US with J-1 visa to take one university course of 3 credits (DS312) in 15 sessions at University campus. After successful completion of the program, participants will be eligible to receive an official SF State University Certificate and transcript. Can transfer the credits back home or to other universities around the world. Students will spend their stay immersed in the culture of one of the most diverse and vibrant cities in the world. Enjoy everything San Francisco and the Bay Area have to offer, through Hop-on Hop-Off Bus Tours field trips, social activities and visits to famous neighborhoods, museums, birthplace of Silicon Valley and more.

DS 312 Data Analysis with Computer Applications (Units: 3)

(Prerequisite: Business Statistics I or MATH 124 Elementary Statistics, English Language Proficiency equivalence to IELTS 6.5) Most rewarding for MBA and B.Tech. students for better and higher placements.

Course Highlight: Interpretation and presentation of data with business applications using statistical software packages. Multiple regression, sampling techniques, design and analysis of surveys, analysis of variance, experimental design, and contingency tables.
